

10/23/04

To whom it may concern,

I was made aware of an expansion program FCC is considering for the LPFM stations.

I am opposed to this service expansion due to the fact it would take priority over local

Fm translators as 104.3 in S.W. Ohio. K-Love is a station with strong family values

And has greatly impacted me and my family and many local families for several years.

It has helped to reinforce community and personal values and responsibilities.

The loss of 104.3 (K-Love) from the community would be tragic for our young people and families in any area, and this is certainly a time in our country where more personal and community values are needed, not to be forced off the air!

K-Love (104.3) definitely is a positive force in serving the public and building stronger families.

thank you,

Dr. Larry Smith
